

On Association Management

Full Service Management

Think of full service management as having a trusted partner to keep the trains running on time, and sweat all the details. We'll be there every step of the way helping your organization fine tune its vision and execute a well thought out plan, building on a foundation of best practices and making that plan a reality.

Outsourcing your association management responsibilities has the advantage of giving you decades of experience at a fraction of the cost of a full-time staff. You pay for only the services you need and can add or drop functions as your association grows and changes.

Operations Management

If your strategy is in place and it's just a case of wanting to take the administrative burden off of your key volunteers, TVDA can provide all of the daily and weekly detail-oriented support your organization needs. We can manage anything and everything, from monthly mailings and coordinating committee meetings, to tracking membership rolls and making sure donors are acknowledged in a timely fashion. We would love to help.

Our service programs are extremely flexible, scaling up and down as needed, so you pay for only the hours you need that month, while remaining confident that nothing gets overlooked.

TVDA's principals have more than 40 years of collective experience leading successful nonprofit organizations of all sizes.

Our work has included responsibility for the operations function of a national healthcare nonprofit, planning successful annual fundraising events and leading numerous volunteer events and governance committees.

It is this experience that allows us to create an association management program tailored to your needs and built to reflect the ideals and values, of your organization.

A sample of our clients include: Philadelphia Chapter of the Public Relations Society of America and Aphasia Access, a national health care association.
