# Thank You...

## For Your Interest In the AVTE.

The Association of Veterinary Technician Educators (AVTE) is honored to play a central role in supporting front line veterinary educators and grooming the next generation of leaders in the process. We would be honored to have you in our growing ranks.

AVTE programs are well known for the success in crafting meaningful knowledge exchange in a way that brings educators together for not just a spot interaction, but rather long-term relationships. Whether it be through our online community, the fireside chat series, AVTE's annual conference, or another of our top-quality programs, you will find people vested in your helping you (and your students) succeed.

I am proud to have been a part of the AVTE community for some time now and hope that you will welcome you soon.

**Paula Kirkwood, DVM**  
President

**The mission of the Association of Veterinary Technician Educators is to promote quality education in Veterinary Technology. (est. 1973)**

**Our mission is accomplished by sharing information and experiences through our website and during our biennial Symposium. The Symposium features a unique keynote speaker, several in-depth workshops, and many educational sessions facilitated by AVTE members and other industry experts who share their first-hand experience, best practices and successes so that you can return to your classroom energized, motivated and prepared to teach the next generation of professional veterinary technicians.**
